

# TEACHING ASSISTANTS

NEEDED FOR A NATTER!

**TAs! You encourage students to talk about how they feel, but have you ever talked about how YOU feel...about numbers?**

Independent charity National Numeracy found 43% of trainee teachers lack either confidence or skills, or both, when it comes to maths\*.

**WHAT?**

Join the Big Number Natter – join the nation’s only natter about how you feel about numbers. Love it or loathe it, everyone has something to say about maths!

**WHY?**

If you feel more confident with numbers, the children in your care will too. Having a Big Number Natter is a great first step.

**WHEN?**

**4-8** NOVEMBER  
2024

**NUMBER CONFIDENCE WEEK**  
A perfect time to get nattering

\*11,000 trainee teachers who used the charity’s online skills and confidence building tool, the National Numeracy Challenge, 43% were either low in maths skill, low in maths confidence or both.
